<p>Dear Sir/Madam,</p> <p>I write this comment in support of the planning application as a resident of Batley who believes that this development will bring positive aspect to our local community.</p> <p>The proposed planning for the building will enrich the local community by providing religious space where respect and tolerance towards local townfolk will be preached it will bring people of faith and no faith together for the sake of our shared humanity and community cohesion.</p> <p>The proposed building will be put into good use instead of leaving it derelict.</p> <p>The location is in the town centre which will be easily accessible to people due to it being in the centre of the local community.</p> <p>The parking spaces would not be an issue, as their would be sufficient parking spaces after reviewing the planning application.</p> <p>The mosque as a local amenity in the town centre would be an attraction for the local economy where muslims can do shopping knowing that they will be able to fulfill their religious obligation within walking distance.</p> <p>I urge our council to approve this planning application as it would be a positive development for the local community.</p>
