I have concerns regarding the proposal and believe it would not be in the best interest of the local community, particularly considering the following issues. Traffic and Road Safety - The potential impact on traffic and road safety in the area, the plans show only 2 parking spaces, however there are going to be 4 staff on site through the day, plus visitors and deliveries, these extra vehicles are going to have to park on the roadside/pavement. The road is already very busy and these extra cars will create safety hazards for pedestrians and other drivers. Privacy & Noise concerns - Worried about privacy and noise implications, may have a higher level of activity than a regular home and am concerned about the noise and potential disruption to the neighbourhood, I have concerns over the level of supervision and potential for behaviour that could affect the residential character of the area.
