Existing Parking and Road Safety Issues Parking associated with renovation works at the property has already created significant problems for neighbouring residents. Contractor vehicles, including large vans, have frequently parked on the road outside the property, creating dangerous blind spots for residents exiting their driveways and for vehicles merging onto Church Lane from The Coppice. With the proposed care home likely to generate additional daily vehicle movements and on-street parking, these hazards are likely to become permanent. This could significantly increase the risk of potentially fatal road traffic accidents given the speeds at which many motorists travel illegally on Church Lane already.
