

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	John Greenhalgh
Site Address	49 Quarmby Road, Huddersfield, HD3 4EA
Description of Development	Pitched roof and flat roof dormer extension to front of dwelling to replace existing flat roof front dormer. To create 2 additional loft bedrooms.

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Insulation specified is above and beyond the minimum requirements of Part L of the current Building Regulations
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Materials will be sourced locally, especially the timber frame and roof tiles.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Dormer frame is timber, typically grown in the UK or Scandinavia.

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

Insulation is thicker and better performing than the minimum Part L requirements

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

N/A, it is a dormer roof.

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

N/A, it is a dormer roof.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

N/A, it is a dormer roof. Although if required, bird and bat boxes could be installed to the sides of the dormers

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

N/A, it is a dormer roof.
