2026/90571 2026/90572 Pavement o/s, Utilita, Ramsden Street, Huddersfield, HD1 2BQ	Planning application details | Kirklees Council	Support removal of the existing BT Telephone Booth. Object to the installation of a new BT Street Hub. The BT Street Hub would create an obstruction to the safe and free flow of pedestrian movements along the footway making it narrower and making it more difficult for pedestrians, wheelchair users, those with pushchairs and other vulnerable users, having a detrimental effect on their user experience. Pedestrian footfall is anticipated to increase on Ramsden Street due to significant regeneration schemes including Our Cultural Heart, along with public transport investment such as the refurbishment of Huddersfield Bus Station and the Transpennine Route Upgrade at the Huddersfield Railway Station. Ramsden Street will be a key pedestrian route between these locations. Any future improvement schemes to the footway would be affected by the BT Street Hub's power connections.
2026/90569 2026/90570 19-23, Market Street, Huddersfield, HD1 2EH	Planning application details | Kirklees Council	Object to the installation of a new BT Street Hub. The BT Street Hub would create unnecessary street clutter and a new obstacle on the footway. It could create a distraction for drivers near a pedestrian crossing point. Anticipated to be an even greater distraction outside of daylight hours when the screen will appear brighter. It may also create an obstacle for people getting into or out of a vehicle in the parking bay. Any future improvement schemes to the footway would be affected by the BT Street Hub's power connections.
2026/90542 Adj 33 - 37 King Street Huddersfield 2026/90543 Adj 33 - 37 King Street Huddersfield	Planning application details | Kirklees Council	Support removal of the existing BT Telephone Booths. Object to the installation of a new BT Street Hub. The BT Street Hub would create unnecessary street clutter and a new obstacle on the footway. Any future improvement schemes to the footway would be affected by the BT Street Hub's power connections.
2026/90544 Adj 42 New Street, Huddersfield 2026/90545 Adj 42 New Street, Huddersfield	Planning application details | Kirklees Council	Support removal of the existing BT Telephone Booth. Object to the installation of a new BT Street Hub as there is already another Clear Channel screen in close proximity so a new BT Street Hub would add to street clutter and detract from the public realm aesthetics.
2026/90539 Adj 106 New Street, Huddersfield 2026/90541 Adj 106 New Street, Huddersfield	Planning application details | Kirklees Council	Support removal of the existing BT Telephone Booth. Object to the installation of a new BT Street Hub that would add to street clutter.

2026/90537 Adj Nando's, John William Street, New Street, Huddersfield BT Hub 2026/90538 Adj Nando's, John William Street	Planning application details | Kirklees Council	Support removal of the existing BT Telephone Booth. Object to the installation of a new BT Street Hub. This could create a distraction for drivers near a junction and create a new obstruction to the safe and free flow of pedestrian movements along the footway.
