The size of the property in question is obscenely large and will affect the privacy of surrounding properties by overlooking gardens and views through windows. The construction will also cause a lot of disruption and cause access problems to the surrounding properties and streets due to the streets already having limited access, especially outside the property in question. Danger to children who live in the area and regularly play on the street. Also, the dust could cause asthma and allergy sufferers an increase in symptoms. I'm also concerned with the noise and mess that will be produced from the build
