I am a regular user of the allotment, spending significant time there tending to crops and maintaining the plot. The allotment is an important space for quiet recreation, wellbeing, and food growing. The development would have a direct and negative impact on this environment. The petrol station and associated tyre shop will inevitably increase noise levels in the immediate area. Frequent vehicle movements at all hours Car doors opening and closin Engine idling and revving Activity from the tyre shop tools, machinery, and general operations This level of noise would significantly disrupt the peaceful nature of the allotments and reduce their usability. Allotments are intended to provide a quiet, restorative outdoor space. The proximity of a busy forecourt would undermine this purpose, making it far less enjoyable and potentially unusable for prolonged periods.
