Dear Kerry,

I hope this email finds you well.

As an individual who is a local Climate Activist I STRONGLY object to this proposal. I have an EV vehicle myself and after encouraging two of my neighbours in Grange Moor to go green, they have also bought EV vehicles.

We are hoping our local community will be going green and we are encouraging all the villages around us to adopt the new approach to a greener future for our children and grandchildren.

I was very, very disappointed to see an application for a petrol station be submitted, this is not moving forward, this is taking a step in the wrong direction. There is a BP petrol station just two minutes from this site and also a Morrisons, which is five minutes from this site. Another petrol station is NOT required or needed to destroy the lives of our future generations.

We should be following in the footsteps of all the other councils in the UK, Selby just recently refused an application for a petrol station and Scotland also recently refused an application for a petrol station.

https://www.bbc.co.uk/news/articles/c9894ye46n9o

https://forecourttrader.co.uk/news/climate-change-rules-see-petrol-station-planning-permission-refused/702486.article

I have added the above links for your information, let's move forward in the footsteps of Selby Council & Scotland Council and make Huddrsfield a greener and more welcoming place.

If you need any more information about going green feel free to contact me.

Kind regards
