Dear Kerry Simpson,

I am writing to formally object to the proposed petrol station development in Grange Moor.

My primary concern relates to highway safety. The proposed location is very close to a roundabout, which already requires careful navigation by motorists. Introducing a petrol station at this point would increase traffic movements significantly, creating additional congestion and raising the risk of accidents. In particular, vehicles attempting to turn right onto Wakefield Road would face considerable difficulty and danger due to increased traffic flow and limited gaps.

I am also concerned about the impact on residential amenity. A petrol station operating for extended hours would inevitably bring increased noise and disturbance to the surrounding area. Late-night customers, car engines, and general activity would create ongoing noise nuisance, which is not appropriate for what is currently a residential community.

Furthermore, I have spoken with Councillor Bill, who is aware of the proposal and shares concerns about the suitability of a petrol station in this location.

Overall, I believe this development is inappropriate due to the significant highway safety risks and the negative impact it would have on the quality of life for local residents.

I respectfully request that these concerns are fully considered and that the proposal is refused.

Yours sincerely
