<p>This location has a well-documented history of road safety concerns. When the site previously operated as a garden centre, vehicles turning right into and out of the premises frequently caused disruption and posed a significant hazard, particularly given that traffic along this road typically travels at speeds of up to 50 mph.</p> <p>I personally recall an accident at this location, and there is further evidence of ongoing risk. A highway sign installed near the site indicates that there have been approximately 75 recorded accidents in the past five years. This clearly demonstrates that the area is already a high-risk stretch of road.</p> <p>The introduction of a petrol station, along with associated services such as a garage, would likely increase vehicle movements, including frequent turning in and out of the site. This would exacerbate existing dangers and significantly increase the risk to both drivers and pedestrians.</p> <p>Given the site's accident history, traffic speed, and the nature of the proposed development, I strongly believe this is an unsuitable location for a petrol station. I urge the council to prioritise public safety.</p> <p>Many Thanks.</p>
