<p>Dear Sir/Madam,</p> <p>I am writing this in regards to a potential filling station in question, Benefits of the proposed in question are extremely limited. Any marginal convenience gained potentially saving only a minute or two of travel time does not outweigh the negative impacts associated with the construction and operation of a forecourt. In my opinion this offers no clear community benefit, even moderate negative impacts become unjustifiable.</p> <p>Planning policy requires that developments contribute positively to the local area and in this case that test is not met.</p> <p>Thank you for considering My opinion.</p>
