

## **Appendix A – Climate Change Statement**

### **Climate Change Statement for Planning Applications**

#### **Part 1: Applicant details**

Name of applicant/agent	Mr P McAvinue
Site Address	<b>4a Primrose Lane, Kirkburton</b>
Description of Development	New rear doors

#### **Part 2: Climate Change Mitigation measures**

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Changes are minimal so due to high levels of part L1 now required no additional levels proposed.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Use of local builders merchants

Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Changes are minimal so not though feasible

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

Changes are minimal due to high levels of part L1 now required no additional levels proposed.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

Changes are minimal so negligible impact on flooding. Existing surface water drains utilised.

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

Changes are minimal

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

Changes are minimal

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

Good building practices to be followed
