Dear Elenya

Re: 2026/62/90828/W - Change of use of dwelling to children's care home facility at 90 Birchenclyffe Hill Road, Lindley, Huddersfield, HD3 3NH

I object to the above planning application to change a current family residence to that of a child care facility.

I note a similar application (2025/62/92785) was refused in December 2025. The current application doesn't seem to have provided any detail on what has changed in such a short space of time to necessitate this second submission.

I am concerned about the additional pressure the application would place on the already difficult driving and parking arrangements on lower Birchenclyffe Hill Road and indeed on Briarlyn Road.

The plans indicate an access to the property from Birchenclyffe Hill Rd which does not currently exist and would be dangerous to install. This access would be dangerous and impractical for both visitors to no 90 and also other road uses.

Lower Birchenclyffe Hill Road already has heavy traffic flows (especially at peak times) as it is a convenient link to the A629 (Halifax Road).

Visitors to the VET's and also the Community Centre frequently park on Birchenclyffe Hill Road and Briarlyn Road often causing disruption in non-peak and weekend times and it really is impractical to be adding additional parking daily parking and vehicle movements to this residential area.

I would urge you to decline this application.

Yours sincerely
