DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2026/62/90861/W**
Site Address:	98, Harpe Inge, Dalton, Huddersfield, HD5 9RB
Description:	Installation of access platform lift
Recommending Officer:	Faiza Bano

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 25-Jun-2026

OFFICER REPORT

Site Description

98, Harpe Inge, Dalton, Huddersfield, HD5 9RB is a two storey end terraced dwelling faced in render. The property benefits from amenity space to both the front and rear of the property.
The dwellings which form the street scene are similar in scale, appearance and material palette. The area is predominantly residential with access to local amenities.

Description of Proposal

The applicant seeks permission for the installation of an access platform lift. The platform lift if to be installed to the front of the property. Plans indicate that the minimum base of the platform shall measure 2.1m in its projection and 1.3m in its width. When raised the ramp is to project 1.49m and when lowered is to project 1.89m.
Plan notes indicate that the lift unit is to be positioned central to the steps and/or doors opening where is practicable. The maximum lift travel is to be 1000mm and not beyond, which may see the base needing to be built up to ensure the travel remains less than 1000mm.

History of Negotiations/Amendments

Kirklees Development Management Charter together with the National Planning Policy Framework and the DMPO 2015 encourages negotiation/engagement between Local Planning Authorities and agents/applicants. As the proposal was considered acceptable, no amendments were sought.

Relevant Planning History
No relevant planning history.

Representations

The Council are currently undertaking the legal statutory publicity requirements, as set out at Table 1 in the Kirklees Development Management Charter. As such, this application has been publicised via a site notice.

Final publicity date expired: 12th June 2026

No representations were received as a result of the publicity.

Consultation Responses

No consultations have been requested as part of the planning process.

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019). The site is unallocated on the Kirklees Local Plan. On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research.
National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP2** – Place shaping
- **LP 22** Parking
- **LP 24** – Design

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS)

first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance. The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed and beautiful places

Supplementary Planning Guidance

- House Extensions and Alterations SPD (June) 2021

Legislation

The Town and Country Planning Act 1990 (as amended).
Section 38(6) of the Planning Compulsory Purchase Act 2004 sets out that in considering planning applications the determination must be made in accordance with the plan unless material considerations indicate otherwise.

Assessment

The following matters are considered in the assessment below –

1) Principle of development
1) Impact on visual amenity
1) Impact on residential amenity
2) Impact on highway safety
3) Other matters
4) Representations
5) Conditions
6) Conclusion

Principle of development

The site is without notation of the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to the property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions and Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other planning considerations, including visual and residential amenity, as well as highway safety.

Policy LP1 states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. LP1 goes on further to stating that: The Council will always work pro-actively with applicants jointly to find solutions which mean that the proposal can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions in the area. Policy LP2 sets out that all development proposals should seek to build on the strengths, opportunities and help address challenges identified in the Local Plan. Policy LP24 of the KLP is relevant and states that "good design should be at the core of all proposals in the district".

The principle of development is considered to be acceptable and the matters of visual, residential amenity, highway safety and other matters are assessed below.

Impact on visual amenity

Policy LP24 (Design) of the Council's adopted Local Plan sets out that proposals should promote good design by ensuring the form, scale, layout and details of all development respects and enhances the character of the townscape, extensions are subservient to the original building, are in keeping with the existing buildings in terms of scale, materials and details and minimise impact on residential amenity of future and neighbouring occupiers. Paragraph 135 of the NPPF is also of relevance to the consideration of this application. Key Design Principles 1 and 2 of the Council's adopted House Extensions & Alterations Supplementary Planning Document (SPD) seek to ensure development is subservient to the host property and in keeping with the character of the locality. Principle 7 of the House Extensions SPD requires development to ensure an appropriately sized and useable area of private outdoor space is retained.
The nature of the proposal sees the alteration to the access into the property rather than a projection or height added to the property. The alterations made to the property shall see the installation of a platform lift.
Having taken the above into account, the proposed works would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale, and layout and (c) as the works would form a subservient addition to the property in keeping with the existing building.

Impact on residential amenity

Policy LP24 of the Kirklees Local Plan and Chapter 12 of the National Planning Policy Framework seeks to ensure development has an acceptable impact upon the amenity of neighbouring occupiers. Key Design Principles 3, 4, 5 and 6 of the Council's adopted House Extensions & Alterations SPD seek to ensure development does not have a detrimental impact upon privacy of neighbouring occupiers, cause unacceptable levels of overshadowing or be unacceptably oppressive / overbearing.

The House Extensions and Alterations SPD sets out a number of designs principles which will need to be considered when assessing a proposal's impact on residential amenity, which state:

- Principle 3 – that: "extensions and alterations should be designed to achieve reasonable levels of privacy for both inhabitants, future occupants, and neighbours".

- Principle 4 – that: "extensions and alterations should consider the design and layout of habitable and non-habitable rooms to reduce conflict between neighbouring properties relating to privacy, light and outlook."

- Principle 5 – that: "extensions and alterations should not adversely affect the amount of natural light presently enjoyed by a neighbouring property".

- Principle 6 – that: "extensions and alterations should not unduly reduce the outlook from a neighbouring property."

The proposal sees no additional projection of height added to the host dwelling itself, but rather the addition of an access platform lift. The closest opening along the shared boundary with number 96 Harpe Inge is a small entry way window and door, which are considered non-habitable. As such, the proposal shall impose no significant issues with regards to overlooking, overshadowing/loss of light or overbearing impacts.

In summary, the proposal would have no adverse impact upon the residential amenity of adjacent occupiers and would accord with Policy LP24 of the KLP and the Key Design Principals of the House Extensions and Alterations SPD.

Impact on highway safety

Policies LP21 and LP22 of the Kirklees Local Plan and policies within chapter 9 of the NPPF relate to access and highway safety and are considered to be relevant to the consideration of this application. The Council's adopted Highway Design Guide and Key Design Principle 15 of the adopted House Extensions & Alterations SPD which seek to ensure acceptable levels of off-street parking are retained are also considered to be of relevance.

The proposal sees no additional bedrooms nor alterations to any parking provision. There is no existing off-street parking provision to serve the dwelling and such, no impact upon existing parking arrangements would occur as a result of the proposal.

Therefore, the proposal would not represent any additional harm in terms of highway safety and as such, complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions and Alterations SPD.

Other matters

Carbon Budget

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system, and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target, however it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Representations

No representations were received as a result of site publicity. The proposal was advertised by site notice, with the public consultation period ending 12th of June 2026.

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Conclusion

The application to install an access platform lift has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions and Alterations SPD, the National Planning Policy Framework and other material considerations.
The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Governments view of what sustainable development means in practice.
As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation **CONDITIONAL FULL PERMISSION**

Decision Authorisation – Delegated Powers

Application Number: 2026/90861

Officer Recommendation: Conditional Full Permission

Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.
Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

1. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions and Alterations SPD and the aims of the National Planning Policy Framework.

Plans and specifications schedule: -

Plan Type	Plan Reference	Version	Date Received
Proposed Site/Block Layout	-	-	27.03.2025
Location Plan	-	-	27.03.2025
Grouped Plans and Elevations	10585_A	-	27.03.2025
Application Form	-	-	27.03.2025

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application.

No alterations have been sought since submission as the proposals were considered to be acceptable in their original form.

Report Dated: 23rd June 2026
