<p>Furthermore to my objection to the extension of 11 Holmcliffe Avenue is my home is elevated up higher by 2 to 3 meters even though number 11's house upwards is exactly same height as mine, there is a portion of land about 2.5m or 2500mm in width with a supporting wall between our 2 houses that protects my garden and my conservatory from falling into the garden of number 11 so deep is the drop. The developer who built number 11 back in 2021 told me that they had absolutely no intention of removing that piece of land as it supports up my garden and home. I'm extremely very concerned that with this new extension, that piece of supported protection of land will be removed to build this extension and may cause problems with my property falling into number 11 over time. My garden, my conservatory and even the structural integrity of my house itself may be jeopardised. I am extremely concerned about this planning application and the future implications it may have. I invite the council planners to visit me or contact me.</p>
