<p>With the size of the proposals, it would suggest there is going to be a lot of people going to be living there, where are they all going to park? There is insufficient parking at the property and in the immediate vicinity as it is, this means vehicles are strewn along the highway, this is extremely dangerous and means when pulling out of your drive your pulling into live traffic which is reducing from 60 - 40 with hardly no visibility. This is going to cause more accidents. The size of the proposals doesn't feel right considering the existing dwelling size and would not be in upkeeping off similar properties on the existing row of Semi detached houses</p>
