Company Registration Number: 09898149 - Company Registered in England and Wales

Part 1: Applicant details

Name of applicant/agent	Agent – Paul Matthews Architectural Applicant – Mr & Mrs A Singh
Site Address	Belgreave Barn, 61 Fulstone Hall Lane, New Mill, Holmfirth, HD9 7DW
Description of Development	Removal of Existing Garage and Erection of Replacement Garage/Store

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
The works are subject to a Building Regulations application where compliance will be required. The proposals however have a very limited energy usage/demand. We do however propose to thermally insulate the store (sensitive storage space) which will create a more energy efficient property.
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Sub-contractors and materials will be sourced locally, where possible.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)
The timber cladding is to be carefully removed and re used within the proposals. Other materials to be used within the development (Concrete, Steel, Timber, glass, etc.) are wholly recyclable.
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

Approved Document Part L does not apply to the proposals. The proposed replacement building will be unheated.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

Flood risk does not apply to this application.

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

Not applicable on this application.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

Not applicable on this application.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

Not applicable on this application.

Appendix B – Further information

Kirklees Local Plan

The development plan for the Kirklees Council area (www.kirklees.gov.uk/localplan)

Planning applications guidance and advice notes
