<p>This man's application is very underhand having the adjoining semi already approved number 24 for the same change of residence residential to children's home .</p> <p>We in this street already submitted many objections to number 24 being approved also saying we were worried about him applying for number 26 too.</p> <p>The effect on highway safety, with even more cars visiting the property , privacy of neighbours with cars coming &amp; going at all hours, the effect of noise &amp; distress to those with young children whose sleep could be affected also the impact of property values in the street . We didn't buy our houses in a residential street to be turned into childrens homes some of who may be troubled which may result in police having to be in attendance .</p> <p>The previous objections for number 24 also had objections from the police &amp; childrens commissioner which were disregarded. I seriously hope you take into account the objections for this application of number 26 Thornleigh Road &amp; consider residents this time .</p>
