I am writing to formally object to the proposed change of use of 26 Thornleigh Road, HD4 5PY, from a Class C3 residential dwelling to a Class C2 children's care home. The property is situated within a residential road characterised by family homes. The introduction of a childrens home will change the character of the area, lead to increased activity levels, staff shift changes, and service vehicle movements that are not consistent with the existing residential setting. I am also concerned about the potential for increased traffic and parking pressures. The property does not have sufficient off-street parking to accommodate staff, visitors, and service providers, which will exacerbate the existing parking pressures on the road and affect road safety for residents, including children already living on the road. Further concerns regard noise and general disturbance. A care home environment will involve higher levels of activity at all hours, that will negatively impact myself and other neighbours. Currently the road is very quiet at night with no through traffic, this would no doubt change if this care home is approved. The council recently approved the change of use of the adjoining house 24 Thornleigh Road to a class 2 childrens home where all the same concerns were raised. A second childrens home on a residential street will compound all the issues above and increase the risk of antisocial behaviour. For the reasons outlined above, I respectfully request that the application be refused. I request that my address and personal details are not published.
