As per the comment . The plans are incorrect as there is now an approved house at 3a Croft Drive which backs directly on to this planning . Parking states 3 cars (it is currently full with 2 so unless it's a tiny toy car you won't fit a 3rd car in the front area) Kirklees council are currently putting double yellow lines around the whole area of this build so where will this tiny car go . How will they actually transport any building equipment up a 1m path to this request . Will assume sewage will join the mains ? And what actually is this annex for ? It's closer to Croft drive than the house requesting . So impact to noise and location to neighbouring houses needs to be considered.
