CONFIDENTIAL

Dear Planning,

We will be carrying out urgent health and safety works tomorrow at the location shown on the map below on behalf of our client, Arqiva. We are aware that this site is subject to a Tree Preservation Order.

You have recently undertaken works at this location on behalf of our client. Following a site inspection carried out today by our Area Contracts Manager, Scott, it has been identified that further action is required due to the health and safety risks currently present. Specifically, a large limb (as shown in the images below) has been damaged following the failure of T3 and requires removal. If left, this limb has the potential to fall onto the roadway. In addition, the remaining structure of T3 will be removed as it has already failed.

No other tree works will be undertaken at this time beyond those detailed above. I have copied in Scott Lindsey, Area Contracts Manager for the area, should you require any further information.

Kind Regards,

Laura Smith
TPO Manager
