<p>The erection of this extension will have a detrimental impact on the neighbouring properties of lee court and lee street. Access to the court is one single entrance and exit with only enough space for 6 cars which would mean residents and visitor's would have to park on neighbouring streets impacting those who have caring responsibilities for elderly residents and impact parking for residents on other streets, increase in traffic from this construction will limit where the elderly residents can park who are disabled with mobility issues, who often need ambulances and this construction would stop ambulances access in emergencies in an already narrow entrance not designed for construction vehicles making it dangerous for young grandchildren who will no longer be able to play out has a result. Dust and pollution caused by the construction will impact a neighbour's health who is vulnerable with severe grade 4 COPD disease. The erection will also block a neighbour's view and limit natural light with an erection of a wall right next to their property and entrance which will run the full length of their path blocking light from their garden and also limit light to neighbouring properties and gardens which previous planning applications have been denied.</p>
