<p>I wish to object the construction of the single storey extension because it will have a detrimental impact on it's neighbours. The extension itself that is planned will be imposing on the quality of life and privacy of its neighbours. Imposing too close to the adjacent properties and blocking out natural light onto the neighbouring properties. The extension itself that is planned is not in keeping with the style of the properties on the street and will look out of place and an eyesore, severely impacting the feel and the style of the houses on the court.</p> <p>The extra traffic from construction workers will have an impact on the residents of the street and limit their peace and enjoyment due to noise levels, extra traffic and limited parking on the street. Also, the level of dust and construction debris is also a worry and will severely impact the other residents and neighbouring adjoining street, Lee street. The one thing that encouraged the residents to live on Lee court, was the fact that the deeds state that the front of the properties should remain open plan gardens, with no fences or buildings allowed to the front of the properties and if this planning application is approved, it is a worry that others would follow suit and go against what the deeds state and what was so appealing to the long term residents and would severely impact their quality of life and love and enjoyment of their properties.</p> <p>With limited access to the street, only one entrance and exit, it is a worry of the safety of the residents and visitors with the increased traffic it would create.</p>
