I would like to raise a concern about the extension plans for the property identified in this planning application. The building is already having an impact in the amount traffic at the top of Soothill Lane which has seen a significant increase with inconsiderate parking close by. Vehicles are already parking on double yellow lines and grass verges causing issues for local residents who not only live in close proximity but to other local residents who walk by the centre. Increasing the size of this property would reduce the size of the available parking currently on site which would increase parking on Soothill Lane, further impacting local residents and increasing congestion at the traffic light junction. While I appreciate the need for the community centre, this is not the right place/building to increase size for this, due to the lack of access, parking and placement on a very busy, corner junction.
