Subject: Application Number 2026/91118

Please find objection for application 2026/91118

What's the application for ? Erection of two star front and side extensions with perimeter fencing, access.

Address of the site are building
Upper Soothill community Centre, 1039, Leeds Road, Woodkirk, Dewsbury, WF12 7HY

Your views *

This building has stood there for many years if not 100 years of years and the building work is going to take away its lovely Yorkshire stone charm and make this building look way to modern for its surroundings, I am surprised this building is not listed due to its age

Quoting the plans " The application seeks retrospective consent for the installation of perimeter security fencing and automated access gates" how can plans be asked for after the fencing and gates have already been installed?

The issue that it's already causing on Soothill Lane will end in a bad accident one day, many a times I have come around the corner from Leeds road and nearly gone into the back of a car that waiting to turn into the car park and can not get in due to the keep clear box being blocked or the small car park been full, personally I feel like the car park is way too small for the needs of the building.

There are also cars parked all a long the grass verge and sometimes hey are alway up to Soothill woods and this is on both sides of the road making it hard for larger vehicles to get through as they have straddle the white line which again is an accident waiting to happen.

Please reply so that I am aware of receipt of this email Many

Thanks
