DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2026/62/91119/E**
Site Address:	80, Peep Green Road, Hartshead, Liversedge, WF15 8AH
Description:	Demolition of existing conservatory and erection of two storey rear extension and porch with associated alterations
Recommending Officer:	Jennifer Booth

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 16-Jun-2026

OFFICER REPORT

Site Description

80 Peep Green Road is a detached, stone built dwelling. Part two storey with a perpendicular relationship relative to the rear and a single storey section set back, parallel to the road. The property has a large parking area, with soft landscaping and gardens to rear. The property has an existing conservatory to the rear of the two storey section.

There are open fields to the front, north side and rear of the property with a mix of residential properties to the south.

Description of Proposal

The applicant is seeking permission to remove the existing conservatory and replace it with a two storey rear extension which incorporates a balcony and a porch

The porch would be located on the single storey element with a width of 3m and a projection of 1.1m with open sides and a pitched roof form.

The rear extension would be built to the rear of the two storey section of the house with an initial projection of 3.5m forming a full extension and an additional 1.8m forming the balcony and overhang sharing the pitched roof with the extension. The extension would have a width of 5.4m.

The walls would be coursed stone with tiles for the roof covering.

Relevant Planning History

None

Representations

The application was advertised by site notice, which expired on 08/06/2026

As a result of the above publicity, no representations have been received.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the

Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is Green Belt on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 57** – Green Belt

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published December 2024, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

A consultation draft of the National Planning Policy Framework (the Framework) was published on 16 December 2025. As a consultation, the document is at an early stage and subject to change. Accordingly, for the purposes of this application, no weight is given to the current consultation document.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 13 – Green belt
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change

Assessment

Principle of development:

The site is within the Green Belt on the Kirklees Local Plan Proposals Map. As such a key consideration will be its impact on the Green Belt and it will be assessed having regard to Policy LP57 and NPPF chapter 13. In addition, the impact of the development on design grounds, residential amenity and highway safety will also be considered along with, biodiversity and all other material considerations and representations received.

Impact on Green Belt:

The NPPF identifies that the fundamental aim of Green Belt policy is to prevent urban sprawl by keeping land permanently open. The NPPF also identifies five purposes of the Green Belt. Paragraph 153 of the NPPF states that inappropriate development should not be approved except in 'very special circumstances'.

Paragraphs 154 and 155 of the NPPF set out that certain forms of development are exceptions to 'inappropriate development'. Paragraph 154 sets out that the extension or alteration of a building could be appropriate provided it does not result in disproportionate additions over and above the size of the original building. Policy LP57 of the Kirklees Local Plan is consistent with advice within the NPPF. Policy LP57 of the Local Plan relates to the extension, alteration and replacement of existing buildings in the Green Belt. In the case of extensions, it notes that these will be acceptable provided that the original building remains the dominant element both in terms of size and overall appearance.

Policy LP57 also outlines that such development should not result in a greater impact on openness in terms of the treatment of outdoor areas, including hard standing, curtilages and enclosures and means of access. Further to this, Policy LP57 states that with such development, the design and materials should have regard to relevant design policies to ensure that the resultant development does not materially detract from its Green Belt setting.

The application site lies within the Green Belt; however, the proposed development comprises a modest front porch and a small rear extension to a dwelling that has not previously been extended. The scale and form of the additions are limited and remain clearly subordinate to the original dwelling, which would continue to appear as the dominant element on the site. As such,

the proposal would not result in a disproportionate addition over and above the size of the original building. It is therefore considered that the openness of the Green Belt would be preserved and the development would not conflict with the purposes of including land within it. Accordingly, the proposal is acceptable in Green Belt terms.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

Front porch

Paragraph 5.13 of the House Extensions & Alterations SPD states that front extensions are highly prominent in the street scene. As per paragraph 5.14 of the House Extensions & Alterations SPD, careful consideration needs to be given to ensure that they are carefully designed to limit the potential for them to erode the character, they should be small and subservient to the main house and constructed using appropriate materials.

The proposed porch would be modest in scale and subservient to the host dwelling, ensuring that it would not appear visually intrusive within the street scene. Its design would be simple and reflect the proportions and architectural detailing of the existing property, with materials proposed to match those of the main house. As such, the porch is considered acceptable in visual terms and would preserve the character and appearance of the dwelling and the surrounding area.

Rear extension

Paragraphs 5.1 and 5.2 of the House Extensions & Alterations SPD go into further specific detail regarding rear extensions requiring development to maintain the quality of the residential environment, respect the original house and use appropriate materials.

In terms of visual amenity, the proposed two-storey rear extension is considered acceptable in scale and proportion. It replaces an existing conservatory whilst increasing to two storeys would remain subordinate to the host dwelling which would continue to appear as the dominant feature. The overall massing is appropriate and does not appear overly bulky or incongruous when viewed in relation to the existing property. The design introduces contemporary detailing, including window proportions and an enclosed balcony, which are not characteristic of the host but would not detract from the simple form. These modern elements provide a contrast to the original dwelling while maintaining a coherent overall appearance, and the

proposal is therefore not considered to result in any harm to the character or appearance of the property or wider area.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

There are no properties nearby which could be affected by the works proposed given the semi rural setting.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Chapter 12 of the National Planning Policy Framework.

Impact on highway safety:

The proposals will result in some intensification of the domestic use. However, the property has ample parking to the front.

Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

PROW
A public footpath runs to the north of the site. Due to the location and orientation of the building and site along with the scale and design of the extension, the development is not considered to impact the PROW.

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

None

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Matching materials to ensure that the extensions harmonise with the host property as using alternative materials would look out of place within the street scene.

Conclusion:

This application to erect a porch to the front and a two storey rear extension at 80 Peep Green Road has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation	**Approve**

Decision Authorisation - Delegated Powers
Application Number: 2026/91119
Officer Recommendation: Approve
Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.
Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.
Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of chapter 12 of the National Planning Policy Framework.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and

Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.
