

HERITAGE STATEMENT

Site: KD Afro Ltd, Huddersfield

The property is a traditional building located within a conservation area.

The proposal is to install one double-sided non-illuminated projecting hanging sign to the front elevation.

The sign is modest in size, uses a traditional bracket, and will be fixed into mortar joints to avoid damage to the building.

Materials and colours (cream background with dark green lettering) are in keeping with the character of the building and surrounding area.

The proposal will preserve the character and appearance of the building and conservation area.
