<p>I wish to object to the proposed development due to its harmful impact on neighbouring residential amenity.</p> <p>The proposed development would overlook my garden, resulting in a significant loss of privacy. Due to its position and scale, it would also reduce the amount of natural light reaching the garden and increase the sense of enclosure experienced from the property.</p> <p>This concern is made worse by the cumulative impact of previous nearby development, including the construction of six three-storey houses adjacent to the area, which have already substantially affected light and openness. The addition of further development to the side would intensify the feeling of being boxed in and would have an overbearing effect on the surrounding residential environment.</p> <p>I respectfully ask that careful consideration is given to the impact on daylight, outlook, privacy and overall residential amenity when determining this application.</p>
