Site Description

4 Tipping Lane is a two storey detached property located within an area without notation on the Kirklees Local Plan. The property is constructed from random stone with a tiled roof. There is a forward projection on the property which hosts an integral garage with accommodation above which appears to be an 'original' structure to the property. Amenity space is to the front and rear and to the rear of the property is a conservatory.

Description of Proposal

Permission is sought for a Certificate of Lawful Development for the demolition of the existing conservatory and the erection of a single storey rear extension.

The proposed extension would be set in slightly from the side elevation facing No. 6 Tipping Lane and would project 3 metres from the rear elevation of the property. The width of the extension would be 5 metres with an eaves height of 2.9 metres and an overall height of 4 metres.

The proposed construction materials would be facing brick to match the existing with an artificial blue slate roof.

It is noted that the existing conservatory does not appear to be an 'original' structure as it is not evident on the 1974 historical maps.

Officer Note

As part of a Certificate of Lawful Development, the onus is on the applicant to provide evidence which states why the proposal fits with the permitted development legislation. In this case, the applicant has stated on the application form that the existing residential use is lawful, and existing conservatory complies with permitted development guidelines.
