Photo 11 - View of units from within playground

Photo 12 - View of entrance to Moor End Academy (modular units not visible)

Photo 13 - Entrance to Moor End Academy

Photo 14 - View of modular buildings and school car park from outside school boundary fencing. Modular buildings visually contained by surrounding built form.

Photo 15 - View of modular buildings from within the school boundary fence. The 2no. modular buildings (highlighted with a red arrow) are positioned below the existing car parking and are visually contained by the surrounding built form. By virtue of their single-storey scale and modest height, they remain clearly subservient to the main school building and do not result in any material harm to the character or appearance of the area.
