

APPENDIX A

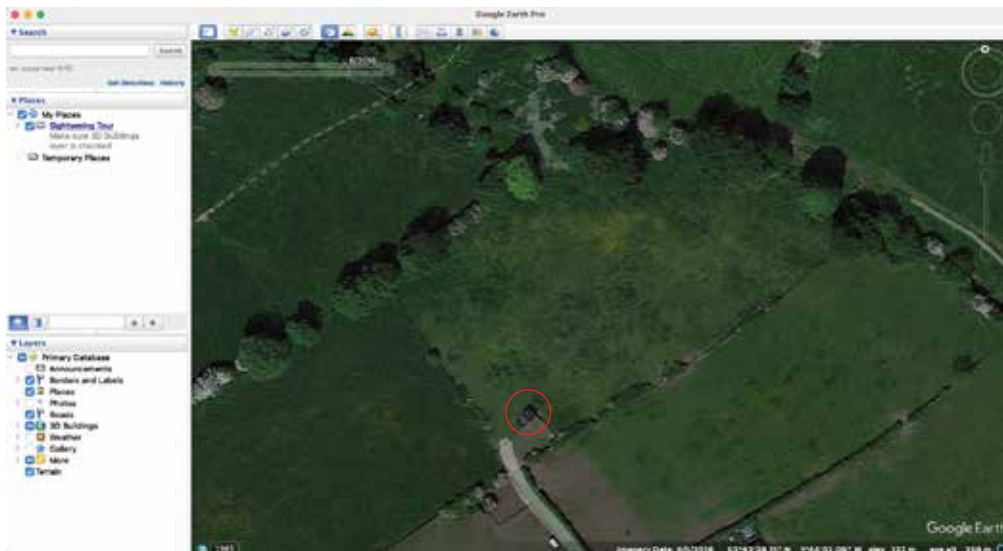

HISTORICAL AERIAL IMAGERY EVIDENCE

Certificate of Lawfulness Application
Existing Stable Building

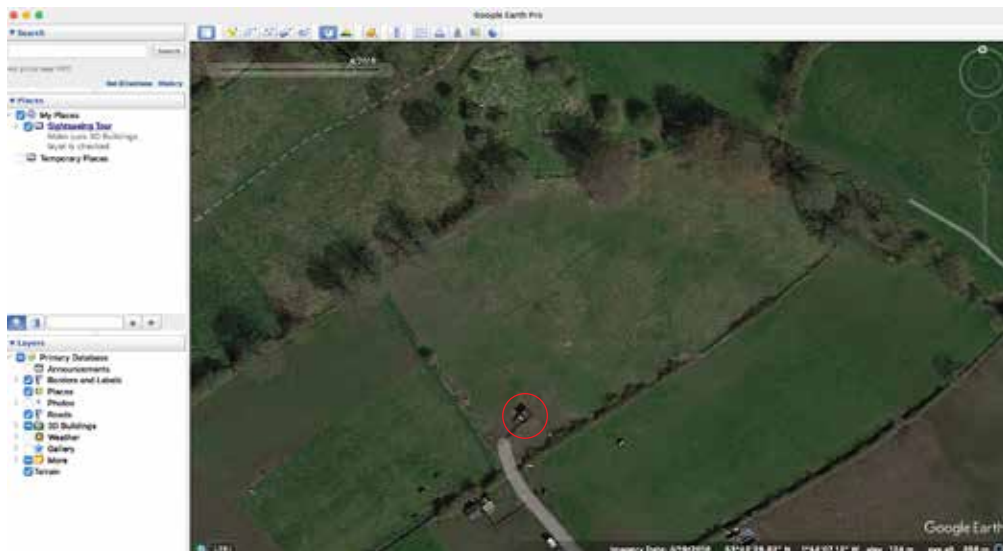

Land at North side of Wellands Lane

Prepared in support of an application for a Certificate of Lawfulness for an existing operational development comprising a stable building.

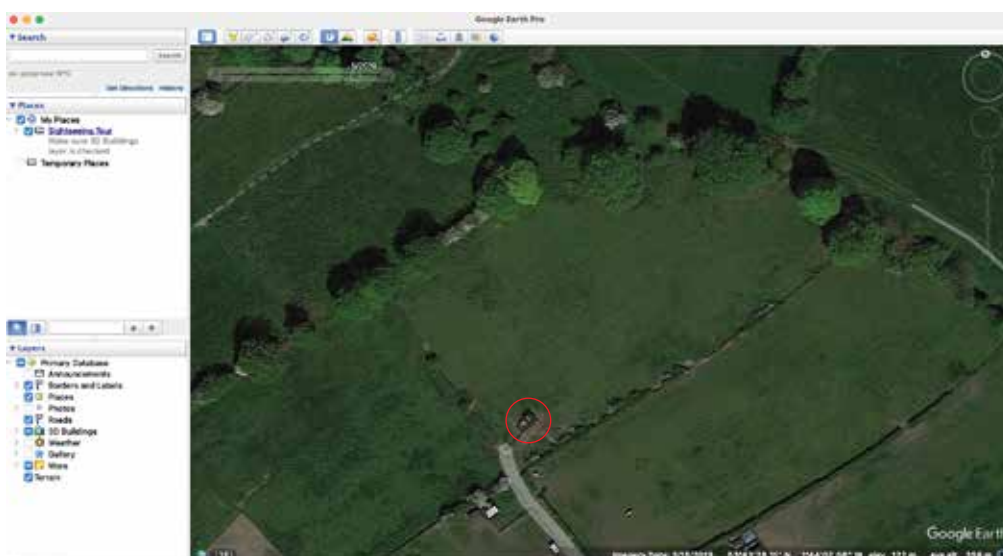

The following historical aerial imagery obtained from Google Earth demonstrates the continued presence of the stable building in substantially the same position and form over a period exceeding the relevant enforcement period.

Google Earth historical aerial imagery dated 06 May 2016.
The stable building is visible within the southern section of the application site and appears substantially complete.

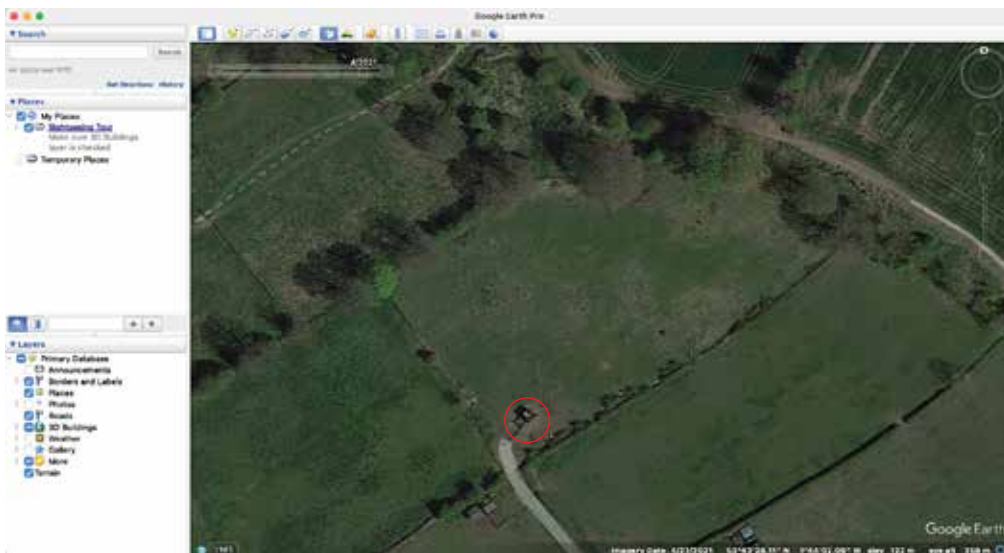

Google Earth historical aerial imagery dated 19 April 2018.
The stable building remains visible in the same position and substantially the same form.

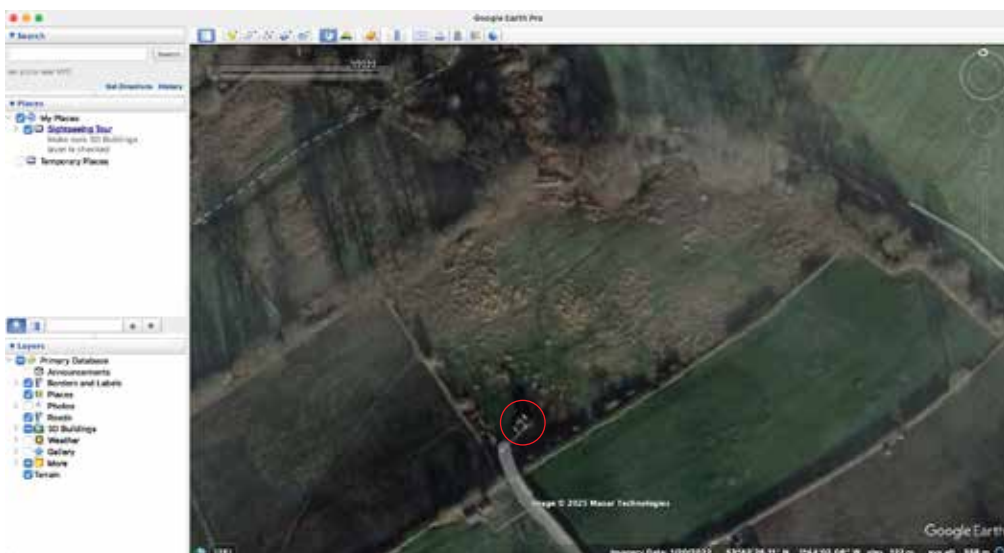

Google Earth historical aerial imagery dated 15 May 2019.
The stable building remains in substantially the same position and form.

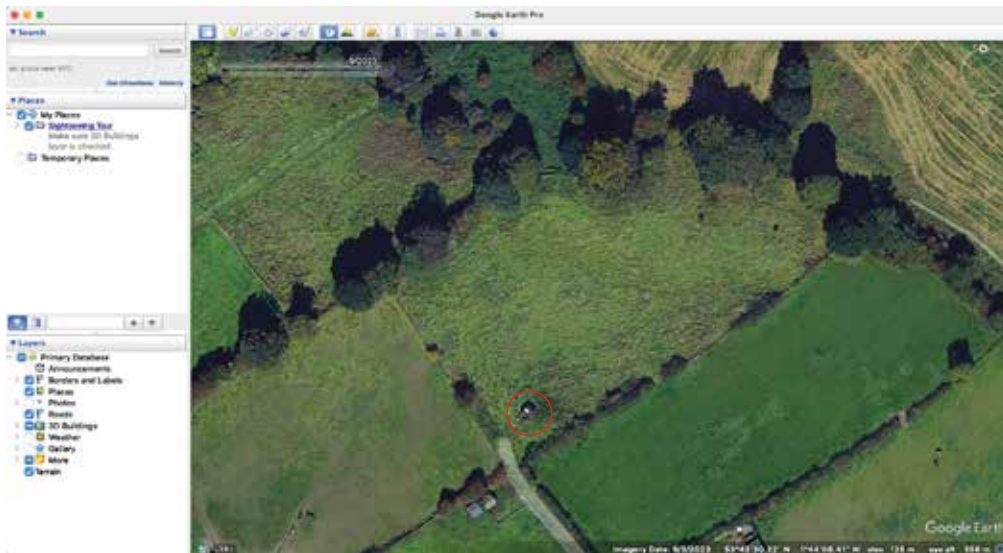

Google Earth historical aerial imagery dated 23 April 2020.
The stable building remains in substantially the same position and form.

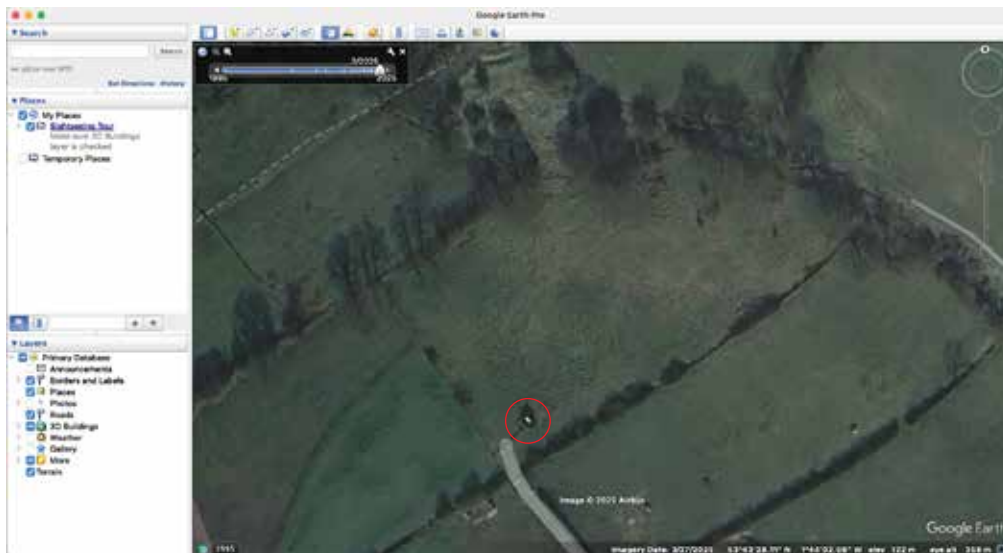

Google Earth historical aerial imagery dated 23 April 2021.
The stable building remains in substantially the same position and form.

Google Earth historical aerial imagery dated 20 January 2022.
The stable building remains in substantially the same position and form.

Google Earth historical aerial imagery dated 03 September 2023.
The stable building remains in substantially the same position and form.

Google Earth historical aerial imagery dated 27 March 2025.
The stable building continues to remain present within the application site.
