Since the Rose & Crown closed in 2020, this site has been an absolute eyesore. My husband and I live directly opposite and we cannot wait for the land to be developed to the high standard that these plans present. We, along with our neighbour's have had many discussions about the future of said site and, basically, we cannot wait for the development to start. It is just what this area needs in order to, once again, be a desirable place to live/visit.
