| <p>Given the number of issues that were unaddressed and unsatisfactorily answered on the very recent and controversial similar planning application I am aghast that a further planning application follows so quickly on the heels of the previous application. The well documented issues of noise, impact on the local environment, proximity to wildlife breeding areas (including bats, various types of owls) incorrect and misleading responses to factual questions within the application, proximity to public footpaths and bridleways, all remain valid.</p> | |
