With reference to Planning Application 2026/91314, we have the following objections, all related to the proposed access to East Avenue as follows: 1) The new opening is directly opposite our house Virginia Lea, clearly visible from inside the house and from our garden. 2) The turning out of the drive will be extremely tight if at all possible since the proposed drive is at an acute angle to East Avenue. reference drawing 2504-GA-120 3) The proposed drive will result in removal of several mature trees, 3 of the them are directly on East Avenue (highway). This will impact the general appearance of the avenue and well as impact on wildlife. 4) The opening will remove the only safe parking place for visitors to the houses Ashmeadow, Virginia Lea and The Orchard. Our suggestion is to have as shared drive with the existing house Ashmeadow, going from left of the Oak tree to the proposed dwelling. This would negate all 1-4 of the above objections.
