DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2026/62/91319/W**
Site Address:	15, Plover Mills, Lindley, Huddersfield, HD3 3ZF
Description:	Extension of existing driveway and associated works
Recommending Officer:	Joanna Rednall

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

John Holmes

AUTHORISED OFFICER

Date: 05-Aug-2026

The Site

15, Plover Mills is a two-storey detached dwelling located in Lindley, Huddersfield. The property is of stone construction and located within a residential area whereby surrounding dwellings are similar in terms of design and construction. The immediate surrounding properties typically benefit from single-width driveways, soft landscaping to the front, and private rear garden areas. Plover Mills is an adopted road.

The site is unallocated on the Kirklees Local Plan map.

The Proposal

The applicant is seeking planning permission for extension of existing driveway and associated works.

The area of grass to the front of the dwelling would be finished in tarmac with the existing hedge removed. The extended parking space would be accessed via an existing dropped kerb which runs along the front boundary.

History of Negotiations

No amendments have been sought in the processing of this application as it was considered acceptable as submitted.

Planning History

None relevant.

Publicity & Representations

The application has been advertised by site notice and on the Council's website in accordance with the Council's adopted Development Management Charter which incorporates the requirements of article 15 of The Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).

Final publicity date expired: 23 July 2026.

No representations were received as a result of the publicity.

Parish/ Town Council Comments

N/A.

Consultations

KC Highways Development Management: no objection subject to permeable surfacing condition and dropped crossing informative.

The responses of the above consultees are discussed in greater length within the 'Assessment' section of this report.

Allocation & Policies

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The application site is unallocated within the Kirklees Local Plan and also falls within a low coal area and also an area with a known presence of bats.

Local guidance and policy is provided by the Kirklees Local Plan (adopted February 2019) as such the following policy, guidance and legislation is considered relevant to the determination of this application:-

Kirklees Local Plan (LP)

LP1 Achieving Sustainable Development
LP2 Place Shaping
LP21 Highway Safety
LP22 Parking Provision
LP24 Design
LP28 Drainage
LP30 Biodiversity and Geodiversity

National Policies and Guidance

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published 12th December 2024, the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

A consultation draft of the National Planning Policy Framework (the Framework) was published on 16th December 2025. As a consultation, the document is at an early stage and subject to change. Accordingly, for the purposes of this application, no weight is given to the current consultation document.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications. Considered to be of relevance to the consideration of this application are policies within the following chapters: -

Chapter 2 Achieving sustainable development
Chapter9 Promoting sustainable transport
Chapter12 Achieving well-designed places

Chapter14 Meeting the challenge of climate change, flooding and coastal change
Chapter15 Conserving and enhancing the natural environment

Supplementary Planning Guidance

House Extensions and Alterations SPD (June 2021)
Kirklees Highway Design Guide (November 2019)

Legislation

The Town & Country Planning Act 1990 (as amended).

Section 38(6) of the Planning and Compulsory Purchase Act 2004 sets out that in considering planning applications the determination must be made in accordance with the plan unless material considerations indicate otherwise.

Assessment

1 – Principle of development:

The site is without notation on the Kirklees Local Plan. Policy LP1 states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework. LP1 goes on further to stating that:

> *The Council will always work pro-actively with applicants jointly to find solutions which mean that the proposal can be approved wherever possible, and to secure development that improves the economic, social and environmental conditions in the area.*

Policy LP2 sets out that all development proposals should seek to build on the strengths, opportunities and help address challenges identified in the Local Plan. Policy LP24 of the KLP is relevant and states that “good design should be at the core of all proposals in the district”.

In this case, the principle of development in this application is acceptable and shall be assessed against the applicable material planning considerations within the following report.

2 – Impact upon visual amenity

Policy LP24 (Design) of the Council’s adopted Local Plan sets out that proposals should promote good design by ensuring the form, scale, layout and details of all development respects and enhances the character of the townscape, extensions are subservient to the original building, are in keeping with the existing buildings in terms of scale, materials and details and minimise impact on residential amenity of future and neighbouring occupiers.

Paragraph 135 of the NPPF is also of relevance to the consideration of this application.

Key Design Principles 1 and 2 of the Council's adopted House Extensions & Alterations Supplementary Planning Document (SPD) seek to ensure development is subservient to the host property and in keeping with the character of the locality. Principle 7 of the House Extensions SPD requires development to ensure an appropriately sized and useable area of private outdoor space is retained.

The proposed development would not result in a significant impact on the street scene. Whilst it would involve the loss of an area of soft landscaping to the front of the dwelling, which contributes positively to the character of the area, the extent of this change is limited and, given the property's position, would not be sufficiently prominent to harm the overall appearance or character of the street scene.

It is therefore considered that in terms of visual amenity, the proposed would comply with Policy LP24 of the Kirklees Local Plan, the adopted House Extensions and Alterations SPD, and advice within the National Planning Policy Framework.

3 – Impact on residential amenity:

Policy LP24 of the Kirklees Local Plan and Chapter 12 of the National Planning Policy Framework seeks to ensure development has an acceptable impact upon the amenity of neighbouring occupiers. Key Design Principles 3, 4, 5 and 6 of the Council's adopted House Extensions & Alterations SPD seek to ensure development does not have a detrimental impact upon privacy of neighbouring occupiers, cause unacceptable levels of overshadowing or be unacceptably oppressive / overbearing.

The House Extensions and Alterations SPD sets out a number of designs principles which will need to be considered when assessing a proposal's impact on residential amenity, which state:

- Principle 3 – that: *"extensions and alterations should be designed to achieve reasonable levels of privacy for both inhabitants, future occupants, and neighbours".*
- Principle 4 – that: *"extensions and alterations should consider the design and layout of habitable and non-habitable rooms to reduce conflict between neighbouring properties relating to privacy, light and outlook."*
- Principle 5 – that: *"extensions and alterations should not adversely affect the amount of natural light presently enjoyed by a neighbouring property".*
- Principle 6 – that: *"extensions and alterations should not unduly reduce the outlook from a neighbouring property."*

Due to the nature of the development, it would not result in any significant impacts in relation to overlooking, overshadowing or overbearing to any neighbours.

It is therefore considered that in terms of residential amenity, the proposed would comply with Policy LP24 of the Kirklees Local Plan, Principles 3, 4, 5 and 6 of the adopted House Extensions and Alterations SPD, and advice within Chapter 12 of the National Planning Policy Framework.

4 – Impact on highway safety:

Policies LP21 and LP22 of the Kirklees Local Plan and policies within chapter 9 of the NPPF relate to access and highway safety and are considered to be relevant to the consideration of this application. The Council's adopted Highway Design Guide and Key Design Principle 15 of the adopted House Extensions & Alterations SPD which seek to ensure acceptable levels of off street parking are retained are also considered to be of relevance.

The proposal would widen the existing driveway to provide an additional off-street parking for one vehicle, which would reduce reliance on on-street parking and provide a modest benefit to highway safety. No on-site turning provision is proposed. However, the dwelling is located on a quiet residential cul-de-sac where vehicle movements are limited, and it is not considered that manoeuvring within the highway would give rise to any significant highway safety concerns.

Kirklees Highways Development Management has raised no objection, subject to a condition requiring the parking area to be surfaced and drained in accordance with the Communities and Local Government and Environment Agency guidance on the permeable surfacing of front gardens. An informative is also recommended to be attached to advise the applicant that a Section 184 agreement may be required for works within the public highway.

It is also noted that there is sufficient space within the site boundary to accommodate bin storage and therefore would comply with Key Design Principle 16 of the SPD.

It is therefore considered that in terms of access and highway safety / parking the proposed would comply with Policies LP21 and LP22 of the Kirklees Local Plan, principle 15 of the Council's Street Design Guide and chapter 9 of the National Planning Policy Framework.

5 – Other matters:

Ecology

Chapter 15 of the National Planning Policy Framework are relevant, together with The Conservation of Habitats and Species Regulations 2017 which protect, by law, the habitat and animals of certain species including newts, bats and badgers.

Policy LP30 of the Kirklees Local Plan requires that proposals protect Habitats and Species of Principal Importance. Whilst it is acknowledged that the site is located within an identified bat alert area, the proposals are relatively modest, and therefore considered unlikely that the proposals would have an impact on the bat population. An informative has been provided however, making the applicant aware that if bats are discovered on site during the works, any development shall cease and the applicant is advised to contact Natural England for advice on how to move forward.

Climate Change

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan pre-dates the declaration of a climate emergency and the net zero carbon target, however it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Considering the modest nature of the proposed development, it is considered that the proposed development would not have an impact on climate change that needs mitigation to address the climate change emergency. A Climate Change statement has been submitted with this application.

6 – Representations:

None received

7 – Conclusion:

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

This application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation **APPROVE**

Decision Authorisation - Delegated Powers

Application Number: 2026/91319

Officer Recommendation: Approve

Conditions

1. The development hereby permitted shall be begun within three years of the date of this permission.

   Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
   Reason: For the avoidance of doubt as to what is being permitted and to accord with Policies LP01, LP02, LP21, LP22 & LP24 of the Kirklees Local Plan, Principles 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 & 15 of the Council's adopted House Extensions & Alterations Supplementary Planning Document, and Policies within Chapters 2, 9, 12 and 14 of the National Planning Policy Framework.

3. The approved vehicle parking areas shall be surfaced and drained in accordance with the Communities and Local Government; and Environment Agencies 'Guidance on the permeable surfacing of front gardens (parking areas)' published 13th May 2009 (ISBN 9781409804864) as amended or superseded. The development shall be retained as such.
   Reason: In the interests of highway safety and to ensure that the additional hardstanding is appropriately drained to mitigate flood risk in accordance with Policies LP21, LP22, LP28 and LP34 of the Kirklees Local Plan, Key Design Principle 14 of the Council's adopted Supplementary Planning Document on House Extensions and Alterations and Chapter 14 of the National Planning Policy Framework.

NOTE: Bats and the places they use for shelter or protection (i.e. roosts) are protected under the Habitats Regulations 2017 (as amended). They receive further legal protection under the Wildlife and Countryside Act 1981 (as amended). Section 43 of the Habitats Regulations makes it an offence to: deliberately capture, injure, or kill a bat; deliberately disturb bats; or damage or destroy a bat roost. Where a licence is required to derogate from the Habitats Regulations, a grant of planning permission does not constitute consent to proceed with the works insofar as they affect the species in question. The licence must be applied for separately from Natural England, be granted and all licence conditions be complied with for the works to proceed lawfully.

NOTE: The changes to the access within the adopted highway fronting the property will need to be constructed under a section 184 agreement of the 1980 Highways Act (vehicle crossings over footways and verges). You are required to consult the Design Engineer (Kirklees Street Scene: 01484 221000) with regard to obtaining this permission and approval of the construction specification. Interference with the highway without such permission is an offence which could lead to prosecution.

Plans and specifications schedule:-

Plan Type	Reference	Version	Date Received
Location & Existing Site Plan	TR-A26-0308-001	-	18/05/2026
Location & Proposed Site Plan	TR-A26-0308-003	-	18/05/2026
Existing Grouped Plans (Parking Space)	TR-A26-0308-002	-	18/05/2026
Proposed Grouped Plans (Parking Space)	TR-A26-0308-004	-	18/05/2026
Climate Change Statement	-	-	22/05/2026
Application Form	-	-	18/05/2026

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application. No amendments were sought as it was considered that the proposal was acceptable as submitted.

Coal – low coal
