

**Consultation Response from KC,
Trees**

2026/91401 First Huddersfield, Old Fieldhouse Lane, Huddersfield, HD2 1AG

**Proposed electrification works including ground and gantry mounted chargers, overhead steel
gantires and GRP feeder panels buildings**

Date Responded: 12/06/2026

Responding Officer: JD

Responding Ref:

There are no protected trees on or adjacent the site.

The majority of the trees surrounding the site should suffer no impact at all from the proposals. Only a small number of individuals may be affected within G3 and G4 by the new gantries and power units but these impacts should be minimal providing the recommendations within the Arboricultural Impact Assessment are followed.

The majority of the trees are also afforded an adequate level of protection from the existing fencing but the Outline AMS sufficiently shows where temporary protective fencing will be required.

Providing the AMS is secured via condition there would be no objections and no further comments.
