Kirklees Planning Dept. Remainder of my comments not accepted in first c0mment section. Overlaps please. 8. Inadequate Climate Change Statement The submitted Climate Change Statement is generic and fails to robustly address the high energy and carbon demands of heated pools, saunas, and intensive leisure use. This is inconsistent with the sustainability requirements of Policy LP24(d) and Kirklees' wider climate objectives. I understand that a planning application has been submitted for the erection of a detached single-storey wellness and rehabilitation pavilion at 85 Hartshead Lane, Hartshead WF15 8AL. The proposal describes the pavilion as being for ancillary use by two disabled residents. However, to the best of my knowledge there are currently none, and I would appreciate your official confirmation on this point so that the application details can be accurate. I would not like this to be a falsehood. In any case I feel the previous Council rejection overrides this matter. 9. Other observations. A..... Hartshead is spelt wrongly in the Climate Statement. B.....The Application form states no hedges to be removed. There is one. C.....The Application Form states no trees within falling distance. There are some. D.....The site can be seen from a public road. E..... Why have certain things been redacted from the Application? Conclusion and Request This proposal causes significant harm to the Green Belt, the character and appearance of the Hartshead area, and Local Planning Policy. It should be refused for the reasons set out in the officer's report for application 2024/CL/93043/E, which remain applicable. I respectfully request that this objection is given full weight in the determination of the application. Please notify me of Please the decision and any committee meeting or appeal. Yours faithfully,
