Subject: Planning application 2026/91467

I am contacting you with reference to the above application for building work at 9, Butternut Road by Mr S Raiz.

I live at 7 Butternab Road and have done for a number of years.

Mr Raiz's application involves a proposed 2 storey extension to frontside and rear of the building raising the height of the roof and creating a dormer.

I object to the proposal on the following grounds :
This would appear to be an overdevelopment of an existing site particularly when you consider that the house of each side of number 9 are of a similar size being built at the same time.
.
There will also be an overbearing impact due to the scale of this development.

It will be out of character with the houses in the rest of the street owing to the design, scale and height of the proposed.development.

Finally there will be traffic and road safety concerns on our already busy road.Work on the site over many months will increase local traffic and create parking/space issues around the property itself.

I would like these points taken into consideration when looking at tis application.
