Subject: Planning Application 2026/91467

CAUTION: External email. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am writing with reference to the revised application made by Mr S Riaz at 9 Butternab Road.

My name is . I live at 7 Butternab Road and have done so for a number of years.

Mr Raiz's revised application does not now include an extension over the garage.However there is a larger extension at the back of the property to compensate and the previously proposed roof height extension.

Many of the points I previously made in objecting to the planning application still apply.

It will be an overdevelopment of the existing site.This is particularly relevant when you consider that houses on either side of number 9 are of a similar size and age being built at the same time.

It will be out of character with houses in the rest of the street owing to its design, scale and height.

The scale of this development will have an overbearing impact in the area.

Also traffic and road safety will be an issue in our already busy street. There will be work on this site over a long period leading to increased local traffic and parking/space issues around the property itself.

I would like you to take notice of this points when considering this revised application.

I would be grateful for your acknowledgement of receipt of this e mail.
