None of the trees located on this site are protected. Of the three trees present in the area for development none would meet the criteria for protection due to their species, location and heavy pruning they have suffered in the past. Therefore their removal to facilitate the proposals would be deemed acceptable.

If the trees are to be retained, then no dig techniques should be implemented and porous materials used for the drive way.

There is no objection from KC trees as the trees present a relatively low amenity value.
