This is Greenbelt land which should not be built on. South Kirklees has plenty brown field sites which I would be happy to take the developer to visit. Birdsedge is susceptible to power cuts. The electricity infrastructure can not cope with the present housing. Electricity companies are aware of this as I get comments from them on the subject. Water and sewage infrastructure is already at breaking point. Yorkshire Water are often in the area trying to fix problems but with no long term success. Public transport is very poor. A look at bus timetables will confirm this. Schools, doctors and dentists in the area are already oversubscribed. This is another objection easy to verify. Roads are already very busy. Accidents in the area are frequent. Another comment easy to verify. It is a very irresponsible developer who knowing of these problems thinks this is a suitable development opportunity.
