Address of the site or building:	Land off, Penistone Road, Birdsedge, Huddersfield, HD8 8XP
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
The community of Upper Cumberworth continue to fight against green belt development. It is disappointing that developers continue to try and cash in on the beautiful countryside in this area. The developer may argue they are offering some kind of compensation by providing bng areas as part of this application but the fact is that the ecology of the surroundings, notably the ancient woodland, will be affected. The surface water runoff would contaminate a clean high quality watercourse which remains clean and free of non native species and should be protected at all costs. These villages are unsustainable, development would be out of character and affect the setting, and there is no foul drainage capacity. The application should be refused.
