To whom it may concern, I am writing to object to the development on green belt proposed in planning application 2026/60/91494/E. The addition of 40% more homes in the village of Birdsedge would be completely unsustainable. The local sewer network can't handle a development of this size, because the site is not in the current local plan Yorkshire water has no planned or funded upgrades for it. Kirklees Council have previously assessed and rejected this site. My daughter attends Birdsedge First School and I am extremely concerned about highway safety, congestion and school access - which is already very difficult at times! I am appalled by the potential damage to the landscape character and loss of countryside this development could cause, never mind the potential damage to ecology and trees along with increased drainage problems and flood risk. This development would be in massive conflict with the local plan and set a very dangerous precedent. I trust you will take my points into serious consideration and that this development will be stopped. Many thanks and kind regards, 3 Sykehouse Lower Denby HD8 8YL
