I wish to object to this development, although I don't live locally I regularly walk in the area. I base my objection on the following : - the land is Greenbelt and forms part of a natural corridor of land from Penistone road to Barnsley Road . This land should not be developed. - the wildlife corridors would be irreversibly damaged , this land and it's hedgerows are home to protected species , including Badgers , bats , birds and deer. - the lines of sight will be adversely affected if this is approved ,the land looks towards the conservation area and the ancient woodland. - the rural character of the village will go with a development of this size. - this is not a sustainable location , there are no shops , buses or train station and it is not near to any economic activity . - this will be a car dependent site , adding to the already difficult problems on this road , notorious for accidents . Carr Hill road and the Sovereign crossroads which intersect with Penistone road have already seen many accidents . - the noise and pollution will be horrendous, with increased volumes. The traffic is already challenging for residents on this road , - children would not have safe access to school , involving a crossing across a busy main road . Highway safety will be a nightmare . Please consider these points .
