Dear Sir/Madam,

What kind of future are we planning? West Yorkshire in particular seems to be the brunt of tearing up precious farmland , which, when built on will be decimated forever along with already struggling wildlife. If we`re not able to grow our own produce here we look to buy from overseas - which just adds to the National Debt - this has a knock-on effect in umpteen different ways.

It would be so refreshing to have a governing body that would uphold the rights we have inherited from our forebears.

Thankyou for reading this and hope we can help our green land stay that way.

Yours faithfully
