Hello, I am 11 years old. I don't think this plan should go ahead.I know people need new houses, but I don't think this is the right place to build them. These fields are part of the Green Belt and the countryside around Birdsedge. They are home to lots of animals, and once houses are built there, the countryside will be gone forever. We moved here when I was small because of the woods, fields and nature. The world is facing climate crisis and taking away more of the green space is contributing to the problem. I am also worried about traffic. The new houses would bring lots more cars to where I live. The buses do not come very often, and the train station is quite far away, so most people living in the new homes would probably have to use cars. That would mean even more traffic and pollution. The site is right opposite Birdsedge First School, and the roads are already busy and dangerous at school times, people drive fast and overtake in the 30mph limit. Children need to be able to cross the road safely. We have to do this to get our school buses and reach the local park. I don't know why the building of a new park in a housing estate is seen as a good thing. We already have a great park behind the school. I also care about the wildlife. We often see many different birds and animals in these fields. They need places to live too. Please protect our countryside, our wildlife and our village, and refuse this application. Thank you for listening.
