Subject: Application Birdsedge

Dear Sir/Madam,

Application number 2026/60/91494/E

79, Carr Hill Road,
Upper Cumberworth
HD8 8XN

Please, please deny this application again.

This application should be rejected because

My personal concern is the creeping nature of developments like this. Once we start to let developments like this one go ahead, where will it stop? We need to consider the long term effects of loss of greenbelt on generations to come. We can never get it back once it's gone.

They will look back and ask;

"What on earth were we thinking?"

"Where have all the green spaces gone?"

"Why did we allow this?"

"You as a generation have allowed greed to thoughtlessly and detrimentally affect the lives of us and of generations to come."

These are plans to build at least 70 new houses on greenbelt land.

This application has already been rejected.

Each time plans like this are granted, there is loss of more and more greenbelt and countryside, fields and trees.

Please start to consider;

The huge effects on the local ecology, not just with the loss of land, but because of long term effects on adjacent ancient woodlands.

Infrastructure is not in place for a development of this size.

Consideration must be given to local amenities.

Schools are at capacity.

GP practices at capacity.

Building here will put too much strain on the drainage of sewage as it is already at capacity with no plans to improve it.

Local people are, respectively, relying on this department to reject the application please.

Yours faithfully
