Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I wish to object against the planning of further residential properties in Birdsedge. Firstly the A629 is not fit for where the proposed plan is going to be. Directly opposite the school where the roads are already congested at certain times of the day. The school children crossing from the new development to the local school and to the bus stops to other schools will certainly not be safe on the fast main road. The speed past the school is 30mph, the school road markings are worn and the school warning lights don't even work when they should and there is no safe space to cross for children or others in the village. The addition of a planned extra 150 cars would put immense pressure on such a small village of only 150 homes. The amount of accidents coming into the village at Carr Hill Road crossroads is already a big problem which hasn't been resolved yet. An additional 150 cars won't help matters. Secondly the wildlife in this area is vast. This field is the habitat of deer, hares, numerous birds, bats and owls.....the sheep graze in this field and it is currently harvested for winter cattle feed. The hundreds of new houses under development in the local area of Shepley, cumberworth and Birdsedge will put immense pressure on the Shepley health centre too and many can't find a local dentist with spaces for new patients. Kirklees once refused planning on green belt, what has changed in our village to now have Kirklees agree to planning.
