Do you wish your comments to be published on the website anonymously?	No
I would like to strongly object to this proposed development . My grandparents have lived right by this site all of my life . So I have grown up and spent a lot of time in Birdsedge . I think that this is inappropriate use of green belt land especially a site that is right next to the ancient woods I would walk with my grandparents looking for the wildlife in the area .i know that there are bats in the area as we would watch them feeding around my grandparents house at birdsedge farm mews surely this will effect them . It would be terrible if this was all lost . I would also like to point out that the road is already extremely dangerous it was frightening as a child trying to cross to the school playground I can imagine what it will be like for the children who will live in such a large estate . I have attended accidents at the back spot close to this site and can't believe that anybody would want to increase the traffic in that area . We also rely heavily on that road to attend emergencies as a main route and the potential for cars parked especially in winter is extremely worrying as the residents already have to park their cars there in snow/icy conditions . I therefore request that this is rejected outright
