Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I wish to object to the planning application 2026/91494E The new site proposes to add a recreation ground to which we have already got in our village. To put a new recreation ground within a new building development, would divide the village from the start. Them and us! We have a very close nit village with everyone knowing everyone. This means we look out for one another. The plans also show that they would put a pond onto the new site, this would just add worry to any potential buyer and to our children wanting to investigate the site, why would buyers add a pond with all the drownings happening. With this main road, I would not want my own or any other current children wanting to cross the road wanting to see if it's better on the other side. There is enough traffic using this main road already, without adding another 70 plus cars coming out from a new development. This road (A629) carries all through traffic going to Holmfirth, Huddersfield, Denby Dale to the motorway. Therefore more traffic comes through here than all the other villages along the way. To which have also got their own problems with heavy, speeding traffic. Also to add that Birdsedge lane is very busy at school drop off/pick up times and a new development, will just add to this as a lot of parents would set off in their car to work and drop children off along the way. This would definitely be a total nightmare for the current residents that struggle to park already. With this information I beg you to refuse planning for the new site
